

Communal Plots Coordinator (Vacant): oversees planting and maintenance of the plots that are shared by all members, including weeding and watering.

Fundraising coordinator (Vacant): requests funds from applicable funding agencies and local businesses. Plans fundraising events and/or grant applications; solicits in-kind donations of tools, garden supplies, etc.

Demonstration Plots Coordinator: determines various gardening techniques to be demonstrated in these plots and oversee the planting, weeding and maintenance of the demonstration plots.

Communication coordinators (internal and external): promotes the Garden to community, media, potential members, etc. through the Garden website, posters, or other tools; manages internal communication tools such as notice boards at the Garden and email lists for garden members and coordinating committee members.

Donation plot coordinator: works with receiving partners to plan planting of donation plots as well as pick-up or delivery of harvested produce; ensures that donation plots are well maintained (watering, weeding, harvesting, etc.), trains & supervises volunteers helping tend donation plots.

Membership coordinator: maintains membership database with current members information related to demographics, payment and volunteer hours. Accepts and processes electronic applications for new and returning members, maintains a waiting list for potential new members; enforces plot regulations with respect to weeding, planting and harvesting.

Maintenance coordinator: plans, schedules, and oversees building of structures such as planter boxes, compost bins, storage infrastructures, etc. Oversees overall maintenance of the Garden, including weeding of communal members' plot and pathways; care of compost bins; operation of water system; tidiness and storage of tools, directs pests management as needed, etc.

Social coordinator: plans social events or other means to bring gardeners together, with one another and with the wider community.

Water System coordinator: oversees the opening and closing of the garden water system, installation of the garden water hoses around the garden during the gardening season and inform the maintenance coordinator of any need for repair.

Children's garden coordinator (inactive 2019): plans planting of children's garden; works with schools and other partners to involve children in the garden; ensures that children's garden is well maintained (weeding, harvesting, etc.), trains & supervises volunteers helping tend children's garden.
